

Tour #9: Layout Tour

Thursday, June 29, 10:00 AM – 3:00 PM Tour Price: \$29

GEORGE BISSELL & BILL CONGLETON

George Bissell operates two large layouts, an 'O' scale and an HO scale, side-by-side. Both railroads can be operated for continuous running or for switching operations, as George often holds operating sessions with friends. Fine scenery and smooth operation. You may get handed a control to operate!

Bill Congleton has an entertaining outdoor "G" gauge layout on the beach at his home on the shore of Lake Champlain. Bill has designed his railroad to run eight trains on numerous loops to provide a dazzling spectacle. Grab a hand controller and test your operating skills! A light lunch will be provided.

One way driving time (from hotel to George Bissell): 2 hours (90 miles)

One way driving time (Congleton to hotel): 30 minutes (20 miles)
